Mortdale Matters

November 2012 Editorial

From the editor: Welcome to the 2012 November - Exhibition Special edition of *Mortdale Matters*.

It's not the best way to start an issue, but as you may of heard John Bain passed away unexpectedly in September. Our thoughts go out to his family and friends. John you will be missed by all. See page 6 and 7 for memorial article.

Moving on - Golden Jubilee Exhibition 2012. Wow it was the largest exhibition I have ever seen!!! It was of a very high standard and turned out to be a great show. The hard work by all the committee especially Alan Cross, and the members of AMRA NSW, paid off. We were pleased with our attendance this year and hope it will improve in years to come. For the "Exhibition Honour Roll", volunteer photos and exhibit photos see page 10 and pages 12-15.

The Open Day held on the 27th of October was quite a success with over 300 people in the door, we could not be much happier than that. Read page 11 for more news from the day. Thanks to all AMRA NSW members for helping out on this day and thanks to the committee for organising the event.

Finally as this is the last issue of the year, I would like to thank all our readers for your support, all of the committee for their assistance gathering information and their support; I would especially like to thank all of the contributors who have submitted photographs and articles this year. A special thanks to Barry and Marilyn Wilcockson and Glenn Percival for their assistance proofing *Mortdale Matters*.

Looking forward the branch Christmas party later this year!

Hope you enjoy this Exhibition Special edition of *Mortdale Matters*.

Keep safe and happy modelling

Mark Dalli

AMRA NSW Mortdale Matters editor

Submitting to Mortdale Matters

With so much continually happening at our Clubrooms, it's easy for something to slip through the cracks. *Mortdale Matters* especially needs photos! The main focus will always be on Branch activities and events, however any prototype photos or information will be considered. If you have a photo send it in, even if you don't think it will be published in the next issue just try, you'll be surprised. Just leave a disk/CD in the Journal pigeonhole in the office or send me an email at mdalli.mmatters@gmail.com with the photo and a brief description of the photo. The image size does not need to be larger than 1mb.

I must emphasise that ALL submissions must be original material, i.e. photos that you've taken yourself or articles that you have written yourself.

Material is published in *Mortdale Matters* at the committee's discretion.

- The deadline for submitting material for the January 2013 issue is strictly 20th December 2012

Subscribing to Mortdale Matters

Mortdale Matters is an e-newsletter. That simply means that it is electronic news. To subscribe to this e-newsletter please send an email to our publicity officer Phil at pjlee@inet.net.au and let him know that you would like *Mortdale Matters* sent to you. The file is around 2 - 2.5 MB. *Mortdale Matters* is also available online through the AMRA NSW website.

If you do not have capable internet or email please contact Geoff Lanham to have a printed copy available for you at pick up from AMRA NSW or be arrange to be posted. Please note that this service is only available if you do NOT have capable internet.

Vale - John "Bainy" Bain

It is with great distress that I write this with the untimely passing of my friend John Bain who passed away on the morning of Sunday the 16th of September 2012. John was a very active member of AMRA NSW Branch and could be seen at the clubrooms either helping out or running his HO scale trains. I have known John since he joined AMRA in the early 90's and have considered him a mate ever since. Nothing was too hard for him to do nor did he shy away from assisting in any way he could to anyone. There is no better example than to see him volunteering his time at the NSW branch exhibitions. I don't think he ever missed one, always helping mainly the ladies auxiliary in the kitchen, but would help out pretty much everywhere. I also had the privilege of seeing John constantly at the XPT maintenance centre at Tempe, where he worked in the store room.

Similar to AMRA, he was liked by everyone at XPT centre and always helped out where he could. I always called into his office to see him to have a chat, where we talked mainly about model railways and him coming for a cab ride in the XPT down to Junee with me one day. Unfortunately he never had the opportunity.

He spoke about how he could have been an electric train driver in his younger years and would have been an XPT driver by now. But because of his eye colour deficiency this never came to fruition. That said he always mentioned that he could always find his way into the cab of an XPT due to the amount of drivers he knew at Countrylink. Mainly the Sydney Countrylink drivers but some in outer depots also. It's a testament to the type of person John was. He was always smiling and if he wasn't smiling he would be laughing to a joke we just shared or something we both found amusing in whatever it was we were chatting about. I will miss our catch ups at the XPT depot and at the AMRA clubrooms. He loved his night work so he could take his mum to various medical appointments during the day. Just goes to show John's commitment to everyone. I think deep down we were all considered his extended family, it's the way he came across. I always liked to make models for him and he took great pride in showing off my weathering efforts down at the clubrooms. I will miss making models for John, he enjoyed this great hobby so much.

For those of you who both knew and didn't know John, never take anything for granted. You never know when or where our loved ones and friends will be taken from us. With John it was so sudden and completely unexpected. I always said to John when saying goodbye at work, "alright mate have a good rest of your shift mate and I will see you next time bud". So one day Bainy we will see each other mate, it may not be for some time but we will see each other again someday.

Maybe we can all take a leaf out of John's book to look at life a little better. He certainly made the most of his time here with us. He impacted on all of us.

So Bainy if you can read this we miss you mate. Know that you will never be forgotten both at AMRA and at the XPT depot. Goodbye my friend and know my life is better for having you in it and that sentiment is shared by so many, not just me. I am proud to have had John as a mate. Our thoughts and prayers go out to John's family and friends at this difficult time.

Rest in peace good friend.

See you again one day.

James Percival

AMRA member and

Countrylink Driver, Junee.

N Scale Layout

The walls behind the new backdrops at Leafton have been painted blue, like the rest of the layout. A motor repair business has been set up at Wallamudra with someone inside welding something together.

HO Scale Layout

6977 hours of operation

Read

The through road was brought into service on the 26/9/2012. Operation of the through road is only from the Control Centre, as part of the overall realignment the crossover from the down main to the up main is configured a little differently to before. Also the manual push button at Crossover junction has been removed to make the crossover only operational from the Control Centre.

The switch that used to control Platform two has also been removed and is only controlled from the Control Centre. This control is active all the time, before it was only active when the Control Centre was cut in. My great thanks goes to P Lee and G Shade for their help in making the wiring of this project go as smooth as it did.

Control Centre

Stoney Creek is going to be an extremely interesting layout to run on in the future, now is the time to get in and learn the Control Centre functions before the learning curve gets much steeper.

Signals

A start has been made on installing some of the signal drivers on Stoney Creek. I'm never sure why but the start has been made at READ. Soon there should be "end of power sections signals" and "Yard departure signals" appearing on Stoney Creek. Treat these signals with respect as they are delicate and can be broken. I noticed one of our signals has had a knock and hence damaged the signal, treat Stoney as if it was your layout and look after it.

Open Day October 27 - 2012

The October open day is a natural follow on from the exhibition where we invite the public to a special day at the clubrooms to see what we are all about at AMRA. The open day differs from an exhibition where we organise to have other clubs and individuals show their modelling skills and expertise, to a day where we have the opportunity to show off our own skills and facilities. Through this medium we hope to promote the hobby and maybe pick up a few new members along the way.

The Saturday morning arrived and the outside setup began with the awning and gazebo being erected along with the entrance desk. Tables and chairs and the barbeque quickly followed. The food arrived to feed the hungry throng and the traders began setting up their displays. The layouts were populated with trains and last minute test running began. Then just before 10am the early birds started to arrive and so the day began for the public. There was plenty to see upstairs with the 3 fixed layouts fully operational and everyone bringing out their best trains to display to the fascinated public. The downstairs viewing area housed East Matelend and the U-Drive. There was plenty of interest in all of the layouts and lots of drives on the U-Drive.

Jason in charge of U drive at the Open Day.
PHOTO by Barry Wilcockson

The ladies in the kitchen were kept busy making morning and afternoon teas and serving tea and coffee for most of the day. The barbecue did a roaring trade and we had to send out for more supplies to satisfy the demand for rissole sandwiches.

The trade stands this time were Casula Hobbies, Frate-N and SDS Models along with the ladies from Needles and Natter.

By the end of the day around 300 visitors had come through the door. This seems to be a comfortable number as there is no overcrowding and yet there always appears to be plenty of people present.

At the end of the day it was the reverse of the start and all the equipment was packed away as the public drifted away.

Thank you to all the members who worked to make this day a success. Without your help these days do not happen and it is a wonderful opportunity to show off your clubrooms which you have every right to be proud of.

Barry Wilcockson
