

Welcome to this edition of *Mortdale Matters*. As we always strive to present news and pictures in a timely manner, Management Committee (MC) and the editorial team have resolved to release MM issues as soon as practical after the even-month MC meetings.

Our Sydney Model Railway Exhibition is less than two (2) months away. We are seeking club members to volunteer their time to help out at the exhibition, it can be 1/2 a day (or less), a day or even the whole 3-4 days (including setup), we really do appreciate your time and effort, because without you we have no show! I volunteer for an number of different organisations and I can tell you it's a very rewarding experience, especially when you see the end results! A volunteer information pack will be available at the clubrooms shortly, if you are unable to pick them up we can post them out.

The exhibition is a great family day out for all - not just the enthusiast, with prototypical layouts, kids' layouts, hands-on activities, demonstrations, DIY's, U-Drive layout and a ride on "Thomas the Tank Engine". Brochures and printed flyers are available now, to be handed out to groups including sporting or community groups, friends and especially to local businesses such as your local coffee shops or local supermarket community board. A lot of work and money is been put into this event so we really do need to get the word out there!

#### Our exhibition flyer can also be downloaded then printed from:

#### http://www.amransw.asn.au/exhibition/A4-Liverpool%202014.pdf

You can now **LIKE us** on **Facebook.** Facebook postings have started and we will supply news as it comes to hand along with photographs. If you're not on Facebook but you know someone who is, let them know about our page:

#### https://www.facebook.com/pages/Sydney-Model-Railway-Exhibition/395627020547032

We always welcome contributions; further information follows on the next page. Just try, you will be

surprised.

Until next issue,

Mark Dalli Editor

### **Submissions and Subscriptions**

With so much continually happening at our Clubrooms, its easy for something to slip through the cracks. Mortdale Matters especially needs photos of Branch activities/events, members' models and covers; however any prototype photos or information will be considered for use as space permits. Email mmatters.amransw@yahoo.com.au, or leave a disc in the Journal pigeonhole in the office, with the photo and a brief description.

All submissions must be original material, i.e. photos that you've taken or articles that you have written, and are published at Management Committee's discretion.

Mortdale Matters is an e-newsletter, meaning simply that it is electronic news. To subscribe please send an email request to our Publicity Officer, Philip Lee, at <a href="mailto:pilee@iinet.net.au">pilee@iinet.net.au</a>. Please note that the file can exceed several MB; and that Adobe 8.0 (PDF 1.7) or later compatibility is required, to minimise file size. *Mortdale Matters* is also available online from the **AMRA NSW website**.

If you do not have capable internet or email, please contact the Secretary to have a B&W printed copy available for you to collect from our clubrooms. Please note that this service is only available for those without capable internet.

### The deadline for the October 2014 issue is 5 October 2014

### OCTOBER LONG WEEKEND

4th, 5th & 6th October • Sat & Sun 9am-5pm • Mon 9am-4pm WHITLAM LEISURE CENTRE • Memorial Avenue, Liverpool

> Adults \$14

> Children \$7

> Seniors \$10

> \$35 Family

(2 adults/2 children)

Multi-Day **\$28** 

### **FREE buses from Liverpool Station**

- More than 70 layouts and trade stands
- · Parking by gold coin donation to **Liverpool Lions Club**
- Layouts in N, HO, O & G scales and narrow gauge
- Rides on Thomas the Tank Engine™
- Kids scenery clinic

Exhibition details at.... www.sydneymodelrailwayexhibition.com or exhibamransw@optusnet.com.au

# - Kenneth Holmes -

After paying us a final visit in June, 19 year member no. 5350 Ken Holmes finally decided it was time to join other AMRA (NSW) members now playing trains "in the sky". It has been a sad couple of years for Branch members following the deaths of John Bain, Keith Bowles, Ken Butt and Fred Stell.

Ken joined AMRA (NSW) in September 1995 as an N scale modeller, while during the next years he also ran H0 and 0 scale. Lately he moved to running AC, demonstrating that he could move with the times.

Ken had skills in electrics (partly learned when he was in the RAAF Transport section, and at Ford) and in fitting and turning and 0 scale model building, something of a jack of all trades. A regular on the outer track at the club, he was an experience to be watched when at West Box Control, but for an 89 year old he did very well. He was a quiet, gentlemanly individual.

Our condolences go to his wife and family.

Ken, enjoy your time with your mates. You will be missed by NSW members.

The O Gaugers

ABOVE: With the addition of DCS to the universal track on the 0 gauge in the last few years, members have been able to play with new technologies such as locomotives with sound and smoke. (Mark Dalli)

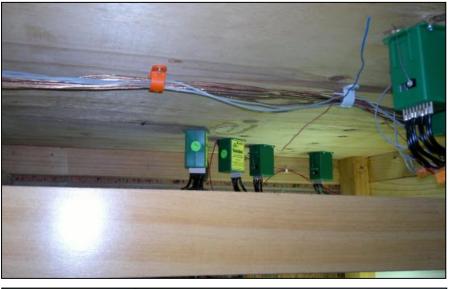

## **Gauge Layout**

All wiring has been completed in Dineon yard with track power switched by the tortoise motors at every point (PHOTO RIGHT). On Monday the 12th we installed the two local controllers to the Dine-on control panel; this completes the installation of local controllers to the layout, while work is progressing with the scenicing of the Dine-on yard area.

ABOVE: Ash Garrard works on installing the last of the wiring for Dine-on yard. (Glenn Percival)

# HO Stoney Creek

# "PIZZA DISCUSSIONS" (H0 FIXED LAYOUT – STONEY CREEK) 13.8.2014, 9857 HOURS OF OPERATION

#### **Control Centre (CTCC)**

On the 1st of August the last tile (1B) had the wiring completed, tested and then install in the CTC panel. After a brief celebration the task of bring it to life was started. Some hours later all of the LED indicators for blocks and points on the Main Line were working.

This achievement was a huge milestone as the main line continuous run was complete.

#### <u>Read</u>

The entry/exit for Read yard has been of yards are now undertaken and is now controlled from the Control Centre (CTCC). Next came the crossover into the Through Road and Platform 2 interlocking. Still more work to be done to get the Through Road fully operational.

#### **Yerriyong**

With the interlocking lessons learnt from Deawy and Read, Yerriyong needed to be brought up to the same standard. This has been done.

#### **General**

With all software projects and with all the best intentions of the people doing the programming there will be small glitches from time to time and the only way these will be overcome will be to use it and report issues, so they can be fixed.

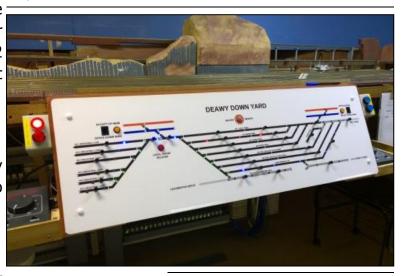

A slight change in the critical path will happen due to many reasons, more detail next report.

Other work is planned for the near future.

*Denis Gilmore*Stoney Creek layout Coordinator

ABOVE: With all tiles wired, TV monitor selections finalised and the whole main lines visible in the CTCC, all movements into/out of yards are now controlled from here.

ABOVE: The latest view of Deawy Down Yard panel, showing the flexibility available in a two-cab yard.

LEFT: Detail of how the traction mode will be selectable when first setting up in a yard, which will carry onto the main line when implemented. These backlit buttons are on test, with a survey on lit versus non-lit buttons running through mid-September.

(ALL PHOTOS Glenn Percival)

# G Stoney Creek - OPERATING RULES

#### **BY OPERATING THIS LAYOUT, YOU AGREE TO:**

- 1. Exhibit common courtesy and common sense.
- 2. Refrain from inappropriate language, respecting families and children.
- 3. Treat the layout with the utmost care and respect.
- 4. Not place boxes on the layout.
- 5. Except in an emergency, use the phones provided no yelling or chatting across the layout.
- 6. Use clear, concise and civil communications protocol across the layout, i.e.

Who you are (what train)

Where your train is

What you want

Acknowledge (readback) instructions

- 7. Not fill yards with additional trains space must be available for an arriving train.
- 8. Not remove trains from the running lines by simply lifting them; if absolutely necessary, replace locomotive in the same location.
- 9. Stable and remove your train, when asked, if found to be repeatedly unreliable.
- 10. Wear cab lanyards during your reserved hour, one per train on the running lines.
- 11. Use the whiteboard, one slot at a time, per train on the running lines. At the end of each cab's hour, the next hour may be booked if still vacant.
- 12. Use hourly cab changeover times based on analogue clock digits, including time to stable your train, i.e.

Cab 0 on the hour	minute hand at "12"
Cab 1 at five past	minute hand at "1"
Cab 2 at ten past	minute hand at "2"
Cab 3 at quarter past	minute hand at "3"
Cab 4 at twenty past	minute hand at "4"
Cab 5 at twenty-five past	minute hand at "5"
Cab 6 at half past	minute hand at "6"
Cab 7 at twenty-five to	minute hand at "7"
Cab 8 at twenty to	minute hand at "8"
Cab 9 at quarter to	minute hand at "9"

- 12. Allow flexibility as to how an operator may use their booked time, e.g. sharing when not on the running lines.
- 13. Not barge into the Control Centre when staffed let them do their job.
- 14. Check with the Control Centre before shutting down layout for breaks ask them to apply master brakes when ready.
- 15. Set one route at a time in Fayenton, Deawy Down, Read and Sutton yards.
- 16. Fill out a Fault & Action Record from the clipboard near the whiteboard, one issue per form, if a problem is found with or caused to the layout.
- 17. The provision of only Kadee-compatible uncouplers on the layout.

Authorised by AMRA NSW Branch Management Committee, 14th August 2014 (v2.0)

# **O** Gauge Layouts

#### Past and Present (0 Gauge Exhibition Layout) Report

Work has started on the new end panels, a few rocks and colours have been thrown at them. I believe we are putting it all together Wednesday and giving it a test run.

I have stopped work on the layout up stairs until the Exhibition layout is up and running.

Lance Pickering

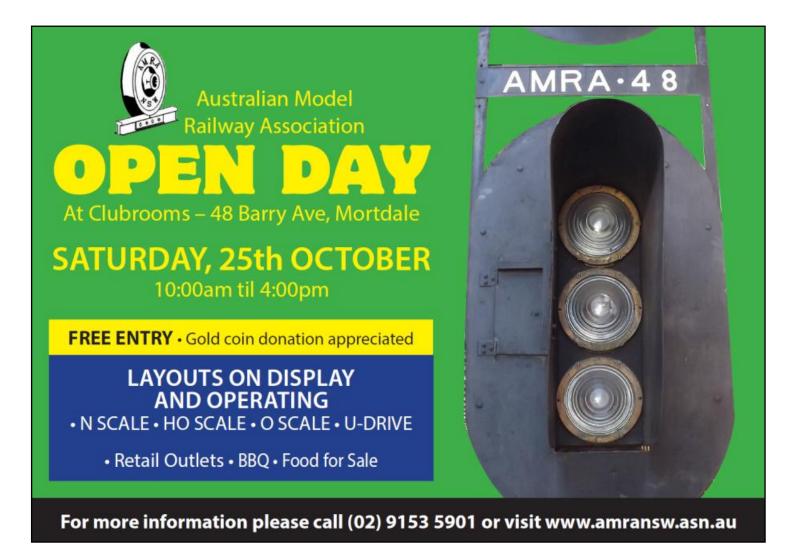

Past and Present layout Coordinator

#### **O Gauge Fixed Layout**

Work is continuing on wiring and installation of points and relays on the universal track. Due to having to erect and prepare the exhibition layout for Liverpool work will take a bit longer. The outer layout is running trouble free at the moment.

Gordon Wallace

0 Gauge fixed layout Coordinator
